Leader : The player is a natural leader and commands the rest of the team from the back-field as he prepares to throw the ball. A team with one or more players with the Leader skill may take a single Leader Re-roll counter and add it to their team re-rolls at the start of the game and at half time after any Master Chef rolls. The Leader re-roll is used exactly the same in every way as a normal Team re-roll with all the same restrictions. In addition, the Leader re-roll may only be used so long as at least one player with the Leader skill is on the pitch - even if they are Prone or Stunned! Re-rolls from Leader may be carried over into Overtime if not used, but the team does not receive a new Leader re-roll at the start of Overtime.

Stand Firm : A player with this skill may choose to not be pushed back as the result of a block. He may choose to ignore being pushed by 'Pushed' results, and to have 'Knock-down' results knock the player down in the square where he started. If a player is pushed back into a player using Stand Firm then neither player moves.

Guard : A player with this skill assists an offensive or defensive block even if he is in another player's tackle zone. This skill may not be used to assist a foul.

Frenzy : A player with this skill is a slaving psychopath who attacks his opponents in an uncontrollable rage. Unless otherwise overridden, this skill must always be used. When making a block, a player with this skill must always follow up if he can. If a 'Pushed' or 'Defender Stumbles' result was chosen, the player must immediately throw a second block against the same opponent so long as they are both still standing and adjacent. If possible, the player must also follow up this second block. If the frenzied player is performing a Blitz Action then he must pay a square of Movement and must make the second block unless he has no further normal movement and cannot Go For It again.

Claws : A player with this skill is blessed with a huge crab-like claw or razor sharp talons that make armour useless. When an opponent is Knocked Down by this player during a block, any Armour roll of 8 or more after modifications automatically breaks armour.

Regeneration : If the player suffers a Casualty result on the Injury table, then roll a D6 for Regeneration after the roll on the Casualty table and after any Apothecary roll, if allowed. On a result of 1-3, the player suffers the result of this injury. On a 4-6, the player will heal the injury after a short period of time to 're-organise' himself, and is placed in the Reserves box instead. Regeneration rolls may not be re-rolled. Note that an opposing player still earns Star Player points as normal for inflicting a Casualty result on a player with this skill, even if the result doesn't affect the player in the normal way.

Thick Skull : This player treats a roll of 8 on the Injury table, after any modifiers have been applied, as a Stunned result rather than a KO'd result. This skill may be used even if the player is Prone or Stunned.

Dodge : A player with the Dodge skill is adept at slipping away from opponents, and is allowed to re-roll the D6 if he fails to dodge out of any of an opposing player's tackle zones. However, the player may only re-roll one failed Dodge roll per turn. In addition, the Dodge skill, if used, affects the results rolled on the Block dice, as explained in the Blocking rules (see page 10.)

Block : A player with the Block skill is proficient at knocking opponents down. The Block skill, if used, affects the results rolled with the Block dice, as explained in the Blocking rules.
